

NAMBI KRISHNA MURTHY

AZURE DATA ENGINEER

nambikrishna2025@gmail.com | Ph: 91-9848091430 | LinkedIn: linkedin.com/in/nambikrishnamurthy

Data Engineer with 3+ years of overall professional experience in data engineering, data integration, and analytics solutions. Skilled in Azure Data Factory, Azure Databricks, Unity Catalog, PySpark, ADLS Gen2, Delta Lake, SQL, Azure Synapse Analytics, and Power BI. Experienced in designing and optimizing ETL pipelines, building scalable data processing solutions, implementing data quality frameworks, and delivering analytics-ready datasets. Strong expertise in data transformation, validation, reporting, and business intelligence solutions.

AREA OF EXPERTISE

Azure Data Factory	Azure Databricks	Unity Catalog
ADLS Gen2	Delta Lake	PySpark
SQL	Python	Azure Synapse Analytics
Power BI	ETL Pipelines	Data Validation
Azure Monitor	Azure Administrator	

KEY ACHIEVEMENTS

- Large-Scale Data Processing.** Ingested and processed 100K+ CSV records per batch into Azure Data Lake Storage Gen2 using Azure Databricks and PySpark.
- Performance Optimization.** Reduced data reprocessing by approximately 30% using optimized incremental load strategies and Delta Lake architecture.
- Data Quality Improvement.** Built automated data validation frameworks to ensure accuracy, consistency, and reliability of transformed datasets.

PROFESSIONAL EXPERIENCE

Toluna India Pvt Ltd, Associate Data Engineer	Aug 2023 – Present
Client: Internal Business Operations	
Project: Enterprise Data Integration and Reporting Platform	Jan 2025 – Present
Role: Associate Data Engineer	

- Developed data integration workflows for processing large-scale enterprise datasets.
- Implemented Delta Lake architecture for incremental data loads, historical tracking, and auditing.
- Built PySpark-based transformation and validation frameworks to improve data quality and consistency.
- Performed data reconciliation and quality checks across multiple processing stages.
- Optimized ETL workflows and reduced data reprocessing effort through incremental loading strategies.
- Delivered curated datasets for business analytics and reporting requirements.
- Implemented Unity Catalog to centrally manage catalogs, schemas, and tables, enabling secure data governance across Azure Databricks.
- Configured role-based access control (RBAC) using Unity Catalog to securely manage access to ADLS Gen2 data assets.

Technologies: Azure Databricks, Unity Catalog, Delta Lake, PySpark, ADLS Gen2, SQL, Azure Monitor, Git

Client: Internal Business Operations	
Project: Survey Data Processing and Analytics Platform	Aug 2023 – Dec 2024
Role: Associate Data Engineer	

- Designed and implemented end-to-end ETL pipelines using Azure Data Factory and Azure Databricks.
- Developed scalable PySpark transformations for data cleansing, validation, and processing of survey datasets.
- Ingested structured data into Azure Data Lake Storage Gen2 and prepared analytics-ready datasets.
- Wrote complex SQL queries for data extraction, transformation, aggregations, and validation.
- Loaded transformed datasets into Azure Synapse Analytics and integrated reporting through Power BI dashboards.
- Monitored and optimized pipeline executions using Azure Monitor.

Technologies: Azure Data Factory, Azure Databricks, PySpark, ADLS Gen2, Azure Synapse Analytics, SQL, Power BI, Azure Monitor , Git

Toluna India Pvt Ltd, trainee Data Engineer	Jan 2023 – Aug 2023
Client: Internal Survey Operations	
Project: Survey Data Management and Reporting Support	Jan 2023 – Aug 2023
Role: trainee Data Engineer	

- Developed and managed survey logic using Conformat, including quotas, filters, and data exports.
- Performed data cleansing, validation, and quality assurance activities for survey datasets.
- Worked with SQL and Python for data processing, analysis, and reporting requirements.
- Assisted in report generation, data verification, and client deliverables.
- Supported Power BI reporting and dashboard preparation activities.
- Collaborated with project teams to ensure survey data accuracy and consistency.

Technologies: Conformat, SQL, Python, Power BI, Data Validation, Reporting ,Git

EDUCATION

B.Tech	2021
Jawaharlal Nehru Technological University - Anantapur, India	

ADDITIONAL INFORMATION

- **Other Skills:** Data Quality Assurance, Debugging, Problem Solving
- **Domain Exposure:** Survey Data Processing, Client Reporting, Analytics Support
